

BTEC Level 1 Certificate in Construction (QCF)

Who is this course for?

This course is aimed at students who want to develop the skills needed to progress to further study and ultimately to employment in construction. It provides an introduction to some of the key themes within the construction sector, enabling students to develop and apply their knowledge while also acquiring a range of relevant practical, communication and technical construction-related skills.

Units

All students will select from units covering; health and safety, bricklaying, carpentry, painting and decorating, plumbing, plastering and electrical installation.

There are also opportunities to understand more about goal setting and what it means to work as part of a team, and to explore the range of job opportunities in the sector.

Knowledge & Skills

The portfolio-based approach to assessment will also support the development of essential communication skills such as extended writing and drafting, critical skills of analysis, team-working, working to a prescribed brief, working to deadlines, presenting information effectively, accurately completing tasks and processes and study skills such as research and time management. These skills will help support progression to level 2 and any future chosen course.

What higher level learning will this qualification lead to?

Students who complete this qualification may progress to level 2 construction qualifications or use their acquired transferable skills to progress to other vocational related sectors.

Pearson offers the certificate and diploma in construction for those students who need to study this sector in greater detail.
