

## The Hydrological Cycle

1. Can you draw a labelled diagram of the water cycle from memory?

2. Can you define the following key terms?

- a. Flows
- b. Stores

3. Can you explain how the following human activities alter the water cycle? Remember to use a chain of reasoning.

Human Activity	How does this alter the water cycle?	What is the knock-on effect?
Deforestation		
Afforestation		
Urbanisation		
Dam building		

4. Which of the above has the highest impact on the water cycle? Can you explain your reasoning?
