

23rd June 2026

Red Weather Warning: School Closure

Dear Parents/Carers,

Due to the current hot weather conditions and the red weather warning issued across the locality over the next two days, and in the interest of pupil and staff comfort and wellbeing, the school will be closed to pupils on Wednesday 24th June (tomorrow).

It is likely that the school will also be closed on Thursday 25th June, but we will confirm our decision for this by 1pm tomorrow, subject any forecast changes. We acknowledge that our forward notice to you today regarding tomorrow and the possibility of Thursday will help your family planning.

All teachers will set online work tomorrow via Class Charts and also on Thursday, if we are closed on this day too. We encourage pupils to get the balance between their learning and wellbeing. As much commitment as possible will always be valued but being comfortable and managing in the heat will be important for all.

As you know, we have put in all possible adjustments for learners this last two days, including uniform adjustments and access to water, toilets and shade (where possible). The decision has not been made lightly and follows advice provided by wider specialists and a detailed school risk assessment.

We understand that school closure may cause inconvenience and appreciate your understanding during these unusual circumstances. We strongly encourage all families to ensure that children remain hydrated and stay in cool, shaded environments.

If you have any urgent queries, please contact the school office via email on: cefnsaeson@hwbcymru.net

Thank you for your continued support.

Yours sincerely,

Ms C Jones

Headteacher
